Adjusting disclaimer line breaks

The following system parameters can be entered in order to adjust the number of line breaks before or after a disclaimer text:

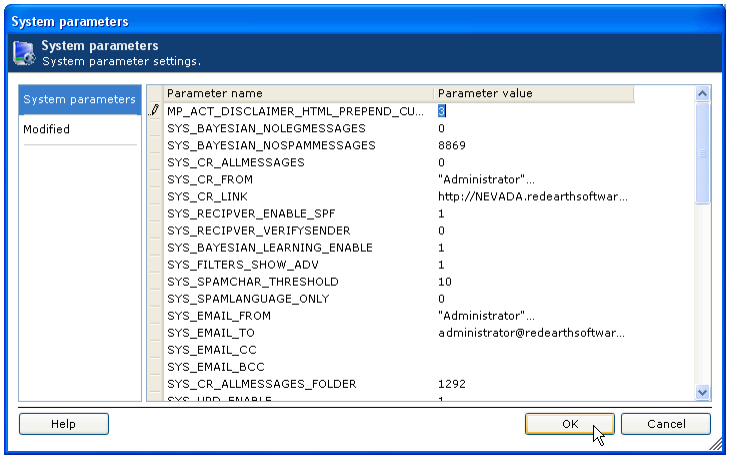

System parameter name	Value	Description
Place after most recent message text (replies/forwards)		
MP_ACT_DISCLAIMER_HTML_PREPEND_CUSTOM_TOP_LINEBREAKS	2	No. of line breaks on top of reply/forward disclaimer (HTML)
MP_ACT_DISCLAIMER_HTML_PREPEND_CUSTOM_BOTTOM_LINEBREAKS	0	No. of line breaks below reply/forward disclaimer (HTML)
MP_ACT_DISCLAIMER_PLAIN_PREPEND_CUSTOM_TOP_LINEBREAKS	2	No. of line breaks on top of reply/forward disclaimer (plain)
MP_ACT_DISCLAIMER_PLAIN_PREPEND_CUSTOM_BOTTOM_LINEBREAKS	0	No. of line breaks below reply/forward disclaimer (plain)
MP_ACT_DISCLAIMER_RTF_PREPEND_CUSTOM_TOP_LINEBREAKS	2	No. of line breaks on top of reply/forward disclaimer (RTF)
MP_ACT_DISCLAIMER_RTF_PREPEND_CUSTOM_BOTTOM_LINEBREAKS	0	No. of line breaks below reply/forward disclaimer (RTF)
Prepended disclaimers		
MP_ACT_DISCLAIMER_HTML_PREPEND_LINEBREAKS	2	No. of line breaks above a prepended disclaimer (HTML)
MP_ACT_DISCLAIMER_PLAIN_PREPEND_LINEBREAKS	2	No. of line breaks above a prepended disclaimer (plain)
MP_ACT_DISCLAIMER_RTF_PREPEND_LINEBREAKS	2	No. of line breaks above a prepended disclaimer (RTF)
Appended disclaimers		
MP_ACT_DISCLAIMER_HTML_APPEND_LINEBREAKS	2	No. of line breaks above an appended disclaimer (HTML)
MP_ACT_DISCLAIMER_PLAIN_APPEND_LINEBREAKS	2	No. of line breaks above an appended disclaimer (plain)
MP_ACT_DISCLAIMER_RTF_APPEND_LINEBREAKS	2	No. of line breaks above an appended disclaimer (RTF)

Note that you must set the line breaks **per email format** (i.e. HTML, plain and RTF) as well as **for each position** (i.e. prepended, appended and for replies/forwards). For replies and forwards, you must set the system parameters in the top section (i.e. the system parameters containing PREPEND_CUSTOM in the name).

The numbers in the Value column are the default number of line breaks that are used by Policy Patrol. To change these default values you have to enter the system parameter as follows:

1. Open the Policy Patrol Administration console.
2. Go to **Local server** > **Advanced** > **System parameters**.

3. Enter a system parameter name from the above list and in the parameter value enter the desired number of line breaks in between the disclaimer texts. When you are ready, click **OK**.

4. Now send a test message and see whether the result is as intended. If necessary, go back to System parameters and change the value again. Remember that you have to adjust the number of line breaks for each different email format (HTML, plain text and RTF).
